EDUCATION

San Francisco State University, (SFSU)

June 2025

B.S. in Computer Science & Engineering

Minor in Mathematics

Overall GPA: 3.80

EXPERIENCE

Pool Captain Website

June 2024 - Present

Web Developer

Remote, CA

- Made a website on Github Pages for friend who has a Pool Cleaning service in Southern California.
- Used HTML, CSS, and javascript to create a beautiful website that is up and running on Github pages.
- Fully functional front end, no need for backend.
- All work is documented on github

WardrobePal Application

July 2024 - Present

Lead Developer

Remote, CA

- Created an APP on Android Studio to help user decide which outfit to wear.
- User can store their wardrobe and be suggested an outfit.
- Currently looking for 20 testers to publish app, will make version for iOS in the meantime.
- APP is scalable and I have high hopes for the future, currently just a simple yet effective version.
- All work is documented on Github.

Bank Transaction Website

December 2023 - June 2024

Web Designer & Developer

San Francisco, CA

- Used React to create front-end for a bank transaction website
- Created various endpoints which were handled in the backend on IntelliJ through Java
- Ran Backend server and used MongoDB as a database to store user information.
- Understood how to handle different endpoints correctly, store information, and have it reflect on the front end in local machine.
- User authentication, transactions, withdrawal, and various other endpoints handled properly.
